📄 SUMMARY

I am a Computer Science graduate from the University of Calcutta and currently pursuing an Master of Science in Computational Science & Applications at Banaras Hindu University. My interests include Artificial Intelligence, Machine Learning, Computer Vision, and Software Engineering.

I enjoy building intelligent solutions that solve real-world problems through the integration of software, data, and automation. My experience spans web development, machine learning, embedded systems, and intelligent automation, including the development of an AI-powered Smart Waste Detection and Classification System.

With expertise in Python, Java, C/C++, JavaScript, SQL, TensorFlow, OpenCV, and Arduino-based systems, I am passionate about leveraging emerging technologies to create innovative and impactful solutions.

🎓 EDUCATION

Higher Secondary
Future Campus School , CBSE
2020 – 2022 | Kolkata, India

Secondary
BDMI , CBSE
2009 – 2020 | Kolkata, India

Bachelor of Science
Behala College , University of Calcutta
2022 – 2026 | Kolkata, India

Master of Science
Banaras Hindu University , BHU
Varanasi, India

🧠 SKILLS

Core Language
Python , C , C++ , Java , Pyqt , Open CV , Pygame

Data Science and ML
ONNX , Numpy , Numba , Pytorch , Keras , Tensorflow , Pandas

Embedded Systems
C++ , Pyfirmata , Arduino , C , Micropython , Python

Scripting
Shell Script , Python

Frontend Development
HTML , CSS , Java Script , Typescript , Tailwind CSS , React Js , Angular Js

Backend Development
PHP , Django , Flask , My SQL , MongoDB , Node Js

📁 PROJECTS

Super Mario fan made (python based)
🎮 Super Mario Game in Python A fan-made recreation of the classic Super Mario platformer, built using Python and Pygame. Jump, run, and explore through retro-inspired levels filled with enemies, obstacles, and nostalgia!.

Garbage Detector bsc final yr project
A real-time Waste Detection & Classification System that combines cutting-edge computer vision, deep learning ensembles, and Arduino-driven hardware to automatically sort trash into the correct bins — hands-free.
